Job Title: Legal Officer IO0934&0987

The ITER Organization brings together people from all over the world to be part of a thrilling human adventure in southern France—building the ITER Tokamak. We require the best people in every domain.

We offer challenging full-time assignments in a wide range of areas and encourage applications from candidates with all levels of experience, from recent graduates to experienced professionals. Applications from under-represented ITER Members and from female candidates are strongly encouraged as the ITER Organization supports diversity and gender equality in the workplace.

Our working environment is truly multi-cultural, with 29 different nationalities represented among staff. The ITER Organization Code of Conduct gives guidance in matters of professional ethics to all staff and serves as a reference for the public with regards to the standards of conduct that third parties are entitled to expect when dealing with the ITER Organization.

The south of France is blessed with a very privileged living environment and a mild and sunny climate. The ITER Project is based in Saint Paul-lez-Durance, located between the southern Alps and the Mediterranean Sea—an area offering every conceivable sporting, leisure, and cultural opportunity.

Application deadline: 01/03/2020
Domain: Director-General
Department: Office of the Director-General
Division: Legal Affairs
Section: Not Applicable
Job Family: Organizational Support
Job Grade: P2/P3
Language requirements: Fluent in English (written & spoken)
Contract duration: Up to 5 years

Purpose

Two vacancies for two different profiles:

As a Legal Officer, you will provide legal advice to all internal departments/units on all legal issues facing the ITER Organization (IO) and their related policy implications, in line with the legal status of the IO as a public international organization.

One position will be focused on insurance and contract management, as part of this role, you may be requested to manage the insurance policies placed by the IO and to interface between brokers/insurers and the ITER Organization’s technical departments.

The second position will be more of a generalist Legal Officer, with a focus on labour, immigration law and its application.

In this context, you may be in charge of drafting and negotiating legal acts/agreements related to the operations of the ITER Project which have complexities, sensitivities and/or financial implications.

Please note, for both positions, we will consider applicants who meet both the P2 and P3 level criteria (see details below) and will make any recruitment offers with amendments as necessary.

Background

Legal Affairs (LGA) within the Office of the Director-General provides advice on all legal issues of the ITER Organization and the ITER Project. LGA ensures that the functioning of the Organization is in line with its mandate and in accordance with international law and with Host State law applicable to the Organization as nuclear operator in France.

LGA provides legal support on all activities of the ITER Organization, contributing to the achievement of its goal, including dealing with legal issues concerning contractual relations, negotiation, and advice on intellectual property rights, contractor’s performance, termination, or settlement of disputes.

Main Duties/Role & Responsibilities
Reviews draft contracts, contract templates and internal regulations within the procurement field;

Provides legal advice and support in relation to business law in particular concerning provisions such as force majeure, liquidated damages, bonds and guarantees, termination, liability, insurance, health & safety related matters, confidentiality, privileges and immunities, etc.;

Provides legal advice on a broad range of law applicable to the IO including labour law, social security law, company law and tax law;

Provides advice and assistance to technical staff in the monitoring of contract execution, pre-litigation monitoring and contractual legal risk assessment, or claims management;

Provides advice on dispute resolution with contractors;

Drafts legal documents and instruments which aim to implement the provisions of the ITER Agreements (https://www.iter.org/doc/www/content/com/Lists/WebText_2014/Attachments/245/ITERAgreement.pdf), its Annexes and Related Instruments;

Ensures law related to insurance applicable to the ITER Organization is respected and properly implemented;

Manages insurance policies for the ITER Organization (IO) and interfaces between brokers/insurers and the ITER Organization’s technical departments;

Manages the annual renewals of the ITER Organization insurance policies and major claims under the ITER Organization insurance policies from the opening of claims until their settlements;
  - Ensures that IO is properly compensated if it suffered damage covered by insurance policies.
  - Manages the declaration and instruction of claim files.
  - Follows-up of claims until their indemnification.

Performs comparative analyses of the legislation and best practices of the different international organizations when required and in particular for contract-related issues;

May be requested to support of any of the project/construction teams and to perform other duties in support of the project;

May be required to work outside ITER Organization reference working hours, including nights, weekends and public holidays.

Measure of Effectiveness

- Handles accurately and efficiently all legal questions within the defined schedule mitigating risks for the IO;
- Develops and reviews legal documents within the defined schedule and to a high quality;
- Provides efficiently relevant expertise (in labour law or insurance/contract) and issues proper and deep analyses upon request;
- Undertakes research and studies to solve issues as needed;
- Maintains up to date accurate data base, ensuring the daily follow-up of insurance claims topics;
- Produces and delivers quality results in a service-oriented and timely manner and is action oriented and committed to achieving agreed outcomes.

Experience & Profile
