This volume contains the proceedings of the 13th Regional Conference of the German Branch of the Association Internationale du Droit Nucléaire / International Nuclear Law Association (AIDN/INLA) held in Leipzig in June 2013.

German and international experts explain the most recent developments in nuclear law in the EU, in Germany and worldwide. The topics include nuclear safety, nuclear liability, nuclear new build and phase-out legislation. Current EU legislation projects, particularly concerning nuclear safety, are explained and their impact is analysed. Worldwide developments are discussed, such as the quest for a global nuclear liability regime. Fitting to the international character of the conference, the language of all papers, including those from German authors, is English, with the exception of four papers dealing with issues of German nuclear law. For everyone who wants to keep up-to-date on important developments of nuclear law, this volume is an obvious choice.

Featuring contributions by:

D. Davies, R. Dussart-Desart, E. Ercan, D. Erni, P. Faross, Th. Fetzer, J. Grunwald, D. Harbrücker, K. Kawasaki, W. Kilb, S. Kochanski, B. Kolesnik, A. Matveev, M. Micklinghoff, C. Moench, T.
